HTML | CSS | Javascript | MongoDB | Node JS |React | Express | Bootstrap | Material UI | Tailwind-CSS | Git

CERTIFICATIONS AND LICENSES

2024, MERN Stack Web Development , NetBots

2023, HTML, CSS, and Javascript for Web Developers , Coursera

PROJECTS

Personal Portfolio | 2024

I developed a personal portfolio using React and integrated various libraries, such as Material UI (MUI) for responsive and modern UI components. Custom CSS and additional libraries were utilized to enhance the design, ensuring a smooth and visually appealing user experience. The portfolio showcases my projects, skills, and professional background with an intuitive layout and seamless navigation.
For Code : Click here

Features:
- Eye catching UI
- React Router Dom for better navigation
- Use MUI for better UI

Hotel Management System | 2023

Developed using the MERN (MongoDB, Express, React, Node.js) technology stack, this system is designed to streamline hotel operations. It features full CRUD (Create, Read, Update, Delete) functionality, enabling efficient management of hotel resources such as bookings, inventory, and staff. With a user-friendly interface, administrators can easily manage data, track orders, and generate reports, ensuring smooth day-to-day hotel operations.

Features:
- Manage hotel services
- React Router Dom for better navigation.
- CRUD operations
- Many more...

Amazon Clone | 2023

Cloning of an E-commerce website that focuses on a UI of Amazon Landing page Using HTML, CSS And JavaScript.
Features :
- Focus on UI
- Bootstrap integration

Netflix Clone | 2023

Cloning of a Netflix website that focuses on a UI of Landing page Using HTML, CSS And JavaScript.
Features :
- Focus on UI
- Bootstrap integration
